

Environmental Policy for GFC Ltd

What we are doing.

At GFC Ltd we take seriously our responsibility to care for and protect the environment in which we operate. We are fully committed to improving environmental performance across all of our business activities and will encourage our business partners and members of the wider community to share that commitment.

We recognise our key impacts to be in the areas of: waste, energy, raw material use, CO₂ emissions, and water use.

We are:

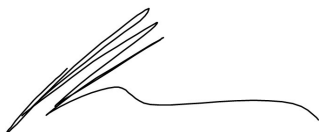

- Adopting and implementing the highest environmental standards in all areas of operation to ensure we meet or exceed all relevant legislative requirements.
- Minimising waste through efficient use of all materials and inputs.
- Using sustainable or recycled products where possible.
- Providing environmental training and education to all employees.
- Encouraging employee involvement.
- Reducing risks from environmental, health or safety hazards for employees and others in the vicinity of our operations.
- Encouraging employees to use environmentally conscious methods of transport when commuting to work i.e. walking, cycling and public transport.
- Including environmental considerations in all investment decisions.
- Continually assessing the environmental impact of all our operations.

We will continue to develop action plans each year to ensure we deliver each of our environmental policy objectives.

We will annually review its performance to these objectives and make the results available.
